

Douglas School's "Thumbs-Up Goals"

Student Interpretation of Douglas Goals

1. We are here to learn. Challenge yourself and others to try new things. Always try your best. If we make a mistake, it's okay!
2. Ask questions. Use our materials and equipment to help find answers. Share what you learn.
3. Read for fun and to learn. Write and say what you think.
4. Be a problem finder and problem solver. Practice with numbers until you feel comfortable.
5. Be attentive and have a serious attitude when learning about health and safety. Then we'll be able to make responsible choices.
6. Observe the world, and notice how things work. Try to see connections within our schoolwork.
7. Be kind and accepting of all others. Look for chances to show we care. And we'll congratulate you when you do nice things!
8. Respect what makes us different; learn about yourself and others.
9. Respect all the ways of learning. Allow kids to be themselves.
10. Know the school rules. Work and play with fairness and common sense. Treat grown-ups and kids the way you'd like to be treated.
11. Be aware of consequences, and tell the truth.
12. Respect our school and help take care of it. Be proud of our school!
13. Look for ways to help our school, our town and our world!
